War "Possibilities" Studied in Secret

Say Soviet Needs 10 to 20 Years To Match War Potential of U.S.

OTTAWA, July 9.—(CP).—Members of Canada's Senate and Commons were told behind closed doors yesterday that it might take Russia between 10 and 20 years to bring her war potential on an equal footing with that of the United States.

Only secret official information was given out on the secret meeting, called by the external affairs committee of the Commons, to allow L. B. (Mike) Pearson, undersecretary of state for external affairs and former ambassador to Washington, to give the fullest possible review of world conditions. However, some members discussing Mr. Pearson's statements in their offices and in the lobby, placed their own interpretation on his remarks.

For instance, one member said he understood Mr. Pearson to say that war was unlikely for another 10 or 20 years. Another said Mr. Pearson

had not been so definite, but had stated that it would take Russia between 10 or 20 years to bring her war potential to a par with that of the United States.

He added that as Russia was the only big power that might want to wage war, possibly the estimate that war was at least 10 or 20 years away might not be so far wrong.

It was indicated that the possibility of invasion through Canada's northland in the event of another war and the possibility of projectiles being used against North America were mentioned briefly but kept strictly within the class of "possibilities."

Mr. Pearson himself told newsmen at a press conference following the meeting that he had given "secret information" because there is no secret information today.

He said he valued the meeting because "it gave me information that I couldn't give it to be publicly attributed to me as a government official."

Peace — But Preparedness

Canada Defence Plans Outlined by Minister

OTTAWA, July 9.—(CP).—Defence Minister Claxton told the Commons today that Canada's foreign policy was peace and the first defence against aggression.

INTRODUCING the \$240,000,000 estimates for his department, he gave a general statement in which he said that, despite some ground for encouragement in United Nations progress, "it still is too early for us to say any nation, blind to its arms with the assurance that there will be no aggression."

He enumerated a 14-point program of long-term projects for development and for the services.

Still No Solution Of Flying Discs

FORT WORTH, Tex., July 9.—(AP).—An examination by the United States Air Force today revealed that a mysterious object was a lonely New Mexico ranch was a harmless high-altitude balloon and not a grounded flying saucer.

Brig-Gen. Roger M. Baney, commander of the 8th Air Force with headquarters here, said the bundle of tin foil, broken wood beams and rubber remnants were the scattered remains of a wind target used to determine the effect of the velocity of winds at high altitudes.

The weather balloon was found about 100 days ago in a desolate spot of New Mexico by a hunter, W. W. Brantley. He said he didn't think much about it until he heard the find was being reported to the Air Force.

The find was reported to Baney immediately to the army air field here.

Poland's Decision Awaited

Soviet Satellites Not To Attend Parley

PARIS, July 9.—(Reuters).—Finland has accepted the Anglo-French invitation to attend the conference on the Marshall plan, was learned today. Previous reports had said that Finland was unlikely to accept.

By Joseph W. Grigg, Jr.

PARIS, July 9.—(BUP).—Soviet satellite nations followed Romania's lead today in refusing to take part in discussions of the Marshall plan for European economic recovery.

BOTH BULGARIA and Romania rejected Anglo-French invitations to attend the July 12 deadline in Paris. Czechoslovakia was the only Russian satellite country which has accepted.

The Romanian decision came after a special cabinet meeting in which it also was decided that Romania would apply for membership in the United Nations. No vote on the rejection of the invitation was reported.

France and Britain set Thursday as the deadline for declining invitations to participate in the conference.

Poland was expected to reach a decision this afternoon.

DISPATCHES from several capitals disclosed that Russia sought to influence the Scandinavians and eastern European countries attending the conference. Memoranda, detailing Foreign Minister V. M. Molotov's views, were given to Sweden, Denmark, Norway, Hungary, Czechoslovakia and probably others.

The Scandinavian and Czechoslovak foreign ministers said there was no Soviet pressure against them to forward the rejection of Soviet views.

It was learned that Molotov's memorandum was handed to the Czechoslovak cabinet last Sunday. The cabinet decided to reject the offer after weighing his objections.

CZECH PREMIER Klement Gottwald and Foreign Minister Jan Masaryk flew to Moscow today to explain the decision to Soviet leaders.

Fear U.S. Embargo In Car "Hoarding"

By Victor Mackie

BALTIMORE, Md. (AP).—A U.S. embargo on the export of an embargo being imposed by the United States on the export of Canada in open-top freight cars has sent H. K. Liberty, Dominion transport controller, hurrying to Washington to negotiate with the American Office of Defense Transportation.

A warning that such an embargo might be imposed on Canadian railways did not stop "hoarding" United States freight cars is reported to have come out of Washington.

Mr. Liberty was scheduled to meet with the Office of Defense Transport officials and representatives of the state department in Washington Wednesday afternoon. It was learned here from government sources that Mr. Liberty's office confirmed Wednesday that he was in the United States capital meeting with the American Office of Defense Transportation.

The American railways have been peevish for the past month over the shortage of box cars for the Canadian railroads, aggravated by the fact that many were being retained in Canada. Upshot was that the United States state department made representation to Canada to correct the situation.

Plan Big Output For City Refinery

Confirmation that Edmonton will have an oil refinery of larger capacity than the one now in the Imperial Oil Company's announcement that it had taken up the option of a 30-acre tract for this purpose in the Clover Bar district.

Officials said Wednesday that the property is on the Daniel Fulton estate, about a half mile east of downtown Edmonton opposite the city hall.

The Edmonton refinery will probably be from 50 to 60 per cent larger than the one now in the Imperial Oil Company's plant, according to tentative plans disclosed by Mr. H. H. Hewitt, Toronto, president of the Imperial Oil Company.

This means the proposed Edmonton refinery will replace that of the company's plant in the city.

A resolution also was passed calling on the Dominion government to have the highway from the Jasper Park exit site to the junction of the Jasper Park Lodge road. The resolution, which was unanimously passed, requested that this work be completed before the 1948 tourist season.

Aid Pledged

BOMBAY, July 9.—(Reuters).—Congress party leaders at a public meeting here gave assurances to non-Muslim minorities in Pakistan that if their rights and liberties were threatened, their co-religionists in the Indian union would stand by their assistance "with all their resources."

To "Clear Up" Whole Matter

Believe Announcement Imminent On Engagement of Princess

LONDON, July 9.—(CP).—Official sources at Buckingham Palace today affirmed that an authorized statement will be made within the next day or two about reports of the engagement between Princess Elizabeth and Philip Mountbatten.

Reuters News Agency said it was understood that the promised announcement dealing with reports of the betrothal "will clear up the whole matter."

Earlier a Buckingham Palace spokesman had sidestepped the issue by saying the King had "not yet" authorized any statement and another well-informed source close to the government refused to issue a denial.

Reports that the engagement between the heiress presumptive to the British throne and the former prince of Greece was to be announced were published under an Athens deadline by the London Daily Mail.

Greek government sources here said they had "no comment" to make.

The Buckingham Palace spokesman, queried about the Daily Mail story said:

"The King has not yet authorized any statement to be made about the engagement of Princess Elizabeth. If the King decides to make a statement it will go through the usual channels."

Observers who took note that the spokesman referred to the "engagement" as an apparent fact, leading to belief that an announcement of the long-expected engagement might indeed be imminent.

Mountbatten drove into Buckingham Palace grounds during the afternoon past hundreds of Britons who had congregated expectantly. He was reported on an "excited summer leave" from his navy post at a west coast training station.

New Jet-Propelled United States Army Air Force's Bomber

This new newest United States battleship of the skies, the Consolidated Vultee's XP-46 jet-propelled bomber, is shown here in its first flight recently at San Diego, California. A four-engined ship, it is the U.S. Army Air Force's newest and tops the performance of previous bombers. The army, however, is giving few details about the new aircraft.

Gromyko Expected to Veto American Proposals

Russia Fights Losing Battle on Balkans Case

By Robert Manning

LAKE SUCCESS, N.Y., July 9.—(BUP).—Russia fought a losing battle in the United Nations Security Council today to clamp UN controls on American aid to Greece, nullify the Truman Doctrine and take the heat off Soviet satellites in the Balkans.

MOST of the 11 countries on the council probably all but Russia and Poland will quash the Soviet maneuver and give Russia the choice of vetoing or accepting the United States plan for a semi-permanent Balkan commission to police the borders separating Greece from Yugoslavia, Bulgaria and Albania.

Official sources disclosed that if U.S. Foreign Minister Andrew Gromyko vetoes the American proposal—as he is expected to do—the United States, Britain and Greece will exhaust every effort to keep the Balkans case alive and toss it to the UN General Assembly in September.

An American official said perhaps the assembly would send a border commission to the troubled southeastern corner of Europe if Russia's use of the great veto kept the council from doing so.

FRANCE and some small-powers reportedly contemplated a compromise proposal for a border commission with weak powers that the present temporary Balkan commission. But Americans said they would insist on a strong one.

Gromyko opened a spectacular counter-offensive against the proposed border commission late yesterday, condemning the American plan as a "vicious" move to reorganize the Balkans.

He said that many important Communist-aligned had fled and others were hiding in Albania or in the mountains.

Most of those arrested, he said, will be taken to islands near Athens, while the investigation continues.

THE TRANSPORT already has begun, some ringleaders, Zervas said, to move to reorganize the army and to review the situation and other probably will be called, officials said.

(Continued on Page 2)

May Request UN Reorganization

WASHINGTON, July 9.—(AP).—Several Republican and Democratic leaders today urged a formal congressional request to President Truman that he take the initiative in a move to reorganize the United Nations.

This proposal, which will only in preliminary stages, has been discussed at meetings of the group and may be taken up by the United States Congress before it adjourns for the summer late this month.

Under tentative plans, this resolution would put Congress on record as asking the president to direct the American U.N. delegate, Warren R. Austin, to call for a general conference to revise the United Nations charter. The aim would be to make the United Nations a more effective instrument for world peace.

Under the article 109 of the charter, such a conference can be called only by the president and members of the general assembly and the approval of any seven security council members.

No Breach of Security

Atomic Files Stolen But Later Recovered

WASHINGTON, July 9.—(AP).—Senator Bourke Hickenlooper (Rep., Iowa) told the United States Senate today secret files were stolen from the Los Alamos (N.M.) atomic energy testing grounds, but said he has "no reason to believe they fell into unauthorized hands."

HICKENLOOPER, chairman of joint Senate-House atomic committee, said "the atomic energy commission did report to the joint committee that there were certain missing atomic energy files at the Los Alamos plant in New Mexico."

He said the incident occurred when two army sergeants took the files to the Los Alamos plant where they were demobilized.

The federal Bureau of Investigation was notified at once by the committee and promptly located the two men and "the documents were as we expected."

Arrest 2,000 In Pre-Dawn Athens Raids

ATHENS, July 9.—(CP).—The Greek government announced that more than 2,000 persons were arrested in the Athens area early today in raids aimed at stamping out a reported Communist plot to stage a revolution and spread civil war throughout the entire country.

THE MINISTER of public order, Nikolaos Zervas, said after hours of the Communist strike was to have been around 1 a.m. tomorrow when attacks were to have been staged simultaneously in all parts of Greece, bringing the present mountain guerrilla warfare into urban centers.

More than 4,000 police, gendarmes and soldiers staged the lightning raids before dawn in the Athens area. Zervas said that many important Communist-aligned had fled and others were hiding in Albania or in the mountains.

Most of those arrested, he said, will be taken to islands near Athens, while the investigation continues.

THE TRANSPORT already has begun, some ringleaders, Zervas said, to move to reorganize the army and to review the situation and other probably will be called, officials said.

Would Reinstall Controls Urge Ottawa Set Up Master Housing Plan

By Douglas Green

WINNIPEG, July 9.—(CP).—The vexatious problem of housing in Canada, termed a "crisis" by the committee on housing of the Canadian Federation of Mayors and Municipalities, yesterday drew from delegates attending its 10th annual convention suggestions that the federal government establish a master plan and reinstate wartime order-in-council forbidding diversion of building materials to non-essential projects.

Dr. ROBERT SAUNDERS of Toronto said he was "fed up" with seeing theatres built at the expense of vital-needed accommodations. He suggested that Maj.-Gen. A. Young of Ottawa, vice-president of the Central Mortgage and Housing Corporation, advise the federal government "the war is still on so far as the housing shortage is concerned."

J. O. Asselin, chairman of the Metropolitan Council of Montreal, said nothing had been done in 50 years for people who could not afford to buy a house for \$30 a month for housing.

"The sooner the federal government comes out with a master plan the sooner the provincial and municipal governments will co-operate."

HE ADDED THAT from the low-income group, if another depression comes, the article 109 of the charter, such a conference can be called only by the president and members of the general assembly and the approval of any seven security council members.

Oil Regulations Are Announced

New oil prospecting regulations announced today by Hon. N. E. Tanner, minister of lands and mines, to take effect immediately, reduce the areas of land on which individuals or companies may hold reservation of petroleum and natural gas rights on crown property for geological and geophysical examination. The regulations include any investigation required by the minister.

Reservations are reduced to a maximum area of 100 acres, where formerly a maximum area of 200 acres was allowed.

Leasehold reservation may be three times the breadth, formerly regulations stipulated twice the breadth.

Not more than two reservations can be held by any individual or company at any one time. Previous regulations allowed three reservations.

Permits are now no longer as assignable as they were in the past. On payment of \$50 for the prospecting permit, reservations for the first year are granted in three four-month periods, providing sales on crown property are made in each period. Between Oct. 1 and April 1 the permit holder may work, but is not required to do so. He can hold his reservation without doing any work on the property during that time.

Other provisions are included in the amended regulations.

Bank Bandits Get Loot of \$212,000

COMPELLVILLE, Ont., July 9.—(AP).—A citizen group of \$12,000 in cash and \$50,000 in negotiable securities was looted today at the Nova Scotia branch here yesterday by a trio of armed thugs who speared and looted the bank and its vaults. The bank manager, who was held for ransom, was released after the bank was looted. The bank manager was released after the bank was looted.

NEW YORK, July 9.—(AP).—Dr. John K. Hill, 38, associate curator of the department of mammals at the American Museum of Natural History and an internationally known taxonomist, died yesterday.

To Present Series Of Sermons in City

H. V. Holt, president of the Quorum of Seventy of Independent Ministers, and E. Ledwith, minister of the prairie provinces, will present a series of sermons in the city.

Relieve FAY FEVER

Fay Fever needs a plague you will not believe. It is a disease that is spreading rapidly in the city. It is a disease that is spreading rapidly in the city. It is a disease that is spreading rapidly in the city.

are in Edmonton to present a series of sermons to the general public and participate in the activities of the Alberta conference of the Reorganized Church of the Latter Day Saints.

BEFORE THE MAGISTRATE Remanded for Trial On Charge of Robbery

George L. Milliken, Edmonton, charged with robbery with violence, was remanded for trial today before Magistrate A. I. Miller in city police court.

The accused was arrested Tuesday morning after he allegedly entered a city hotel, went to the room, and told the girl who was in the room to hand over her money or he would shoot. Carleton, Mike Penikese, and Mike Penikese, who was charged with robbery, were also remanded for trial.

City Magicians To Attend Parley

Clayton Adams, Ted Sacker and Frank Herman, will leave the city today to attend the annual convention of the Pacific Coast Association of Magicians at Seattle, Wash. July 22 to 25.

Professional and amateur magicians from all over the world attend this annual event, including the famous Harry Houdini. The convention program will feature competitions in which the legions of magicians will show their tricks and prizes. In addition, there will be classes in technique and three big shows.

Mr. Herman, for the third time, has been asked to act as master of ceremonies at a "celebrity night" presentation in Seattle's Olympic hotel night club. Dave Brown of Red Deer will accompany the Edmontonians.

Farmers Returning To Hog Raising

By VICTOR MACKIE

EDMONTON, July 8.—Farmers in the prairie provinces are going back into hog raising. Indications are that by the end of this month hog marketing from the western provinces will have declined but now it is on the up-grade again.

The prairie farmers will not raise hogs to the extent they did in 1944 when they established a record figure for production. Since that year the hog population has been declining but now it is on the up-grade again.

For the whole of Canada hog marketing continues to rise. In June hog marketing through inspected packing plants totalled 338,034, an increase of 13.4 percent over the same month last year.

In the prairie farmers marketed 12.3 percent fewer hogs in June than in the same month last year. But the decline was not as great as the 20.3 percent decrease recorded in May this year compared with May 1946 reports received by the federal government indicate that the period of decline in the prairie is over. However, more farmers in Manitoba and Alberta were reverting to hog raising than in Saskatchewan, said Mr. Pearson.

Grant Permission Use Public School

Permission to use the public school at Camp 530 for a Church vacation school from July 21 to Aug. 1, was granted to Mrs. H. A. Clark, director of Camp 530 Vacation school, at a meeting of the Edmonton Public School board in the Civic Block Tuesday night.

The Edmonton Children's Work center, which is the school, and it is staffed entirely by volunteers from the various parts of the city. The school will have a large number of children and will be a very successful one.

In order to meet expenses to the school, the school board will sell Victory Loan bonds amounting to \$10,000. The school board will sell Victory Loan bonds amounting to \$10,000.

George Gilts, was appointed draughtsman to the building department at a salary of \$1,500 per year with yearly increases of \$125. He will commence work July 14. He will commence work July 14.

Resignations were received from J. H. McMillan, R. D. Taylor and J. C. B. Bailey and Dorothy Law were granted leave of absence.

F. B. Howe, a former teacher, was appointed as a temporary teacher to the staff of the McChougall high school on a temporary contract for the year 1947-48 at a salary of \$3,100 plus cost of living.

Mr. C. Carrico was appointed as part-time teacher to the staff of the McChougall high school for the next school year, and will serve as a part-time teacher during the time he is not teaching.

C. E. Stirling was appointed as teacher of industrial arts to the staff of McCaskey intermediate school.

"To keep dresses gay-looking-get HEAPS O'SUDS from Super Suds!"

"I trust my daintiest things to Super Suds' gentle, thick suds! But make no mistake...there's nothing sly about Super Suds. These rich longer-lasting, hard-hitting suds get my linens dazzling with nothing strong added," says Mrs. M. Lichman.

SuperSuds gets your dishes sparkling clean, leaves no streaks-no film-kind to hands!

My old soap gave this watery suds. This undissolved stuff is hard to rinse out. SuperSuds is a registered trademark of the Colgate Co. Limited.

Make the "milk-bottle suds test" Just shake up a teaspoon of Super Suds and a glass of water...erm hard or not...in a milk bottle. See what rich, long-lasting suds you get—compared to less efficient soaps. You, for dishes—suds and washwork—"It's the suds that count."

Louis Kitt, Calgary, received a six-week jail term after his plea of guilty to a charge of false pretences. Particulars given in court showed that the accused had given a worthless cheque for \$50 to a taxi driver. Kitt accepted \$9 in cash from the driver and told him to hold the rest of the cash from the cheque for him.

On charges of theft and wilful damage, Henry Lee, 1078 10th street, was remanded for mental examination until July 9. Police said the accused, who was charged with a 15-year-old juvenile entered the Health King Photo premises, 1078 10th street, and stole a camera while the proprietors were away. The two proprietors gave chase and apprehended the accused at 107 10th street and 45 avenue. Prior to being caught Lee is alleged to have thrown the 39.50 camera to the road and damaged it. Later he told police a 15-year-old boy was with him. The offence is alleged to have been committed about 2 p.m. Monday.

Robert Lane Camp, 1033 108 street, and Ray Miller, Edmonton, pleaded guilty to a joint charge of theft of a movie camera and another camera when they appeared Monday morning. The theft took place in Jasper. Camp also pleaded guilty to theft of a wallet from a CNR hotel in Jasper. Both were remanded until Thursday for sentence. Camp now awaits sentence on 14 charges of theft.

William Barber, 1516 57 street, was given a two-month prison term after his plea of guilty to a charge of second-degree murder of his four children between March 28 and June 12. All the children are under the age of 16 years.

Kenneth Bakken, Edmonton, pleaded guilty to a charge of dangerous driving and drew a fine of \$20 and costs or six weeks imprisonment. The accused drove his auto into the rear of a parked truck on 97 street north of 111 avenue.

For not having potatoes infested with ring rot removed from his cellar to a city dump, Peter Wandlar, 3414 10th street, was fined \$15 and costs. The accused had been warned to remove the potatoes on several occasions.

Ernest L. Hagen, found guilty in district court Monday afternoon by Judge J. D. Matheson on a charge of dangerous driving, was fined \$25, or in default of payment to serve one month prison term. The charge arose out of an automobile accident on Whistler avenue on May 25 last in which two persons were injured, and the accused also suffered slight injuries.

Other attractions include a huge circus side-show of freaks and oddities gathered from all over the world featuring the world's thinnest human alive, a girl with the largest feet in the world, War show with figures in wax of the German war crime leaders after execution and several other thrilling attractions.

Thrill seekers will have their thrills in the Motorcade and Thrill Area, where motion picture stunt men and women appear in trick and fancy riding on speeding motorcycles.

Scenes of new rides will be presented for the first time since the termination of the war, including a sensational "Rolling Star".

Say U.S. Must Treat Soviet as Rival
By JOHN M. HIGHTOWER
WASHINGTON, July 8.—(AP)—A conviction that the United States must deal with Russia for many years as a rival, not a partner, is expressed in a highly authoritative but anonymously-published article which is attracting much diplomatic attention.

The article is published in a quarterly magazine, under the signature "Mr. X." There is speculation among diplomatic officials that it sets forth the thinking of George Kennan, chief of State Secretary Marshall's new policy planning staff.

U.S. Coal Miners Return to Pits
PITTSBURGH, July 8.—(AP)—Satisfied members of the United Mine Workers (AFL), voting approval of the "best work and wage terms we ever had," went back to work in United States mines today just as fast as union locals could get ready to approve the new contract. The back-to-work movement got under way strongly last night in the top coal-producing states of West Virginia and Pennsylvania with thousands of miners building pickets and shovels after a 13-day paid vacation.

Fan Stolen
The hot weather probably prompted the theft reported by the police Tuesday by G. W. McLean, resident at a hotel. He said that his fan, a portable electric fan, was stolen from his room. The fan was valued at \$70 and stolen.

POLICE COURT

Two Men Guilty Vagrancy Charge

By JACK SCOTT
An Army Job

PORT NELSON, B.C. — (By Mail)—South of here at a place called the British Columbia Trading Post we made a rendezvous with the man who has the job of keeping the Alaska Highway open from Dawson Creek to the Alaska border.

Li-Col. J. R. B. Jones, a handsome man of about 40, who looks as if he waits plenty of time, was waiting for us beside the road in his staff car, the only shining automobile we've yet encountered on the road. We went into the post for a cup of coffee.

The colonel is senior highway engineer of the Canadian Army. He keeps 121 of the 1800 miles in shape come sheet, snow, rain, slides or flash floods, a job which means 4000 miles of travel every week for the officer, up and down the highway's length.

Right away, quick we asked about those famous flash floods. Everywhere we were telling us of these phenomena in the north country.

"You may run into them north of Whitehorse," the colonel said, "but we don't think we'll have any more down this way. It's really unbelievable. It's because it's so close to the source of all the western waterways here. A warm sun on the snow in spring causes the rain with its weight to turn in a dried-up stream."

I actually gave by a clump of weeds and a few rocks, a flash flood tearing out of it just as if somebody had dynamited a dam.

One of the flash floods took out a bridge at Mile 670 in the early part of June. The Canadian Army engineers put in a 180-foot, pile-driven bridge to replace it. It took 70 tons in just four days, about par for the course on this road of accepted miracles.

In All Weather
The Canadian Army (under the name Northwest Highway) has been in charge of the maintenance of the road clear to the Alaska border, as well as the access roads to the strip of airfield along its route, since April 1, last year, when the military "army" is largely made up of civilians.

They've set up 18 small sections with a foreman and five men each. These sections are each responsible for 70 miles of the highway, operating grader, steamers out culverts, repairing mail washouts, and, in winter, running the snow plows.

The road in winter, the colonel told us, has a smooth, hard-packed surface and it's like driving the road through a snowdrift. During snow storms the crews sweep the road clear of the snow, frequently rescuing blizzard-bound motorists.

Civilian crews under army supervision handle the heavy graving jobs and major maintenance. There are two camps of R.C.M.E. (electrical and mechanical engineers) to keep the heavy equipment in running order.

The headquarters and administration for the whole immense operation are in Whitehorse where we began our visit. Major Walter, in charge of the heavy equipment, runs the show, in a couple of days.

Later on, too, we plan to visit the 18 small maintenance sections. The colonel tells us that the sections are small maintenance power, sewage systems, telephone and a highly developed community life. We passed through a small town and seen women and kids washing on the line, bright pink gumshoes hanging in the wilderness sun.

Some Background
The colonel gave us a brief primer on the highway's history.

As you know, the road was built to connect the Yukon River to the route to Alaska, a highway still very much in operation in this year of peace. The U.S. Army engineers completed the "pioneer or 'old' road" in 1942 and then the Canadian route was let to civilian firms. Canadian outfits handled the 160-odd miles in the south. American contractors had the rest, completing the job in 1943.

"It was originally designed in Washington as a first-class road, the kind of super-highway you find in the States," Col. Jones said. "They planned to take out all the hard deep cuts, make deep curves and the whole show. They got only to Mile 770 on the design line. Then they got the orders to hang her through."

"From that point on the highway followed the original route through the mountains, possibly building over the old way and there'd be times when you'd think he was drunk."

To avoid muck and swamp, the builders apparently made some fantastic mazes of loops and cutbacks. "You'll meet yourself coming around corners when you get up north," the colonel promised.

With time somewhat less precious now, the Canadians have been improving the road in many places and some really major repairs are in the road are being planned this year.

For its volume of traffic there probably has never been a route more carefully tended than this and when we pulled away and waved goodbye to the colonel I couldn't help wondering what the Russian colonel would be making out over on their side of the Bering strait.

Martial Law

TELEMAN, July 9 (AP)—Martial law was in effect throughout today by order of Premier Alexander Cameron Rutherford, who forecast that it would be used in suppression of newspapers and arrests of editors critical of the government.

The province also would like to convince the central power that it is in their interest and the interest of the whole country that they should appreciate the numerous services rendered by the provincial government and their municipal systems," said Mr. Dussault.

Officials of Quebec's ministry of municipal affairs are revising their proposals, having regard to all possibilities of centralizing and increasing the powers of administration and authority of the municipalities.

The province also would like to convince the central power that it is in their interest and the interest of the whole country that they should appreciate the numerous services rendered by the provincial government and their municipal systems," said Mr. Dussault.

Woman Wins Safety Council Driving Award

The winner of the 10 gallons of gas for the third day of the drive this week by the Edmonton Safety Council for greater security in city streets, Mrs. Clarence Kube, 1193 103 street, is pictured above as she is informed of her award by Paul Lawrence, official of the Council. Mrs. Kube was followed from 101 street, to Jasper avenue and 106 street, driving one in her driving. She has driven an automobile for a total of eight years, and during that time has received but one warning from police officials, for driving too fast in a school zone.

The winner of the 10 gallons of gas for the third day of the drive this week by the Edmonton Safety Council for greater security in city streets, Mrs. Clarence Kube, 1193 103 street, is pictured above as she is informed of her award by Paul Lawrence, official of the Council. Mrs. Kube was followed from 101 street, to Jasper avenue and 106 street, driving one in her driving. She has driven an automobile for a total of eight years, and during that time has received but one warning from police officials, for driving too fast in a school zone.

Safety Campaign Continues in City Select Woman as Safest Driver

Winner of today's 10 gallons of gas awarded daily by the Edmonton Safety Council to the "safe and sensible" driver, is Mrs. Clarence Kube, 1193 103 street. Mrs. Kube was followed by the Safety Council car from 101 street, to Jasper and 106 street. During the drive, she at all times, obeyed traffic and safety rules. She paid particular attention to the pedestrian and was very courteous while driving her car.

In all 37 cars were followed this morning. The other 16 failed to signal properly when making turns. Many Edmonton motorists do not make full stops at red light stop signs. They make a perceptible pause and then continue on.

Says Statements
Are "Unworthy"

Replying to a challenge issued by Elmer E. Roper, provincial C.P.F. leader, at a meeting at Owen Sound, Ont. last night, to announce whether the provincial government had been used to finance the private business ventures of any members of the Social Credit cabinet, Premier Ernest Manning stated today that the leadership in the C.P.F. has sunk to a new low.

Mr. Roper had said during Monday's meeting that Hon. W. A. Fallow, minister of public works and highways, had been holding a \$30,000 mortgage on a Vermilion hotel.

Following is the text of Mr. Manning's statement: "I do not need to add anything to Mr. Fallow's reply to Mr. Roper's irresponsible statement. What passes for leadership in the C.P.F. has sunk to a new low with Mr. Roper's activities, evidently reduced to poking his nose into the private business of other citizens in the hope of finding some political discreditable man or endeavor to find the public honest and efficient administration of their affairs."

"The C.P.F. leader must be hard on the political capital when he accuses the provincial government of having been used to finance the private business of other citizens in the hope of finding some political discreditable man or endeavor to find the public honest and efficient administration of their affairs."

Distillery Official On Periodic Visit

The Hiram Walker and Sons Distillery Plant at Walkerville, Ont. is operating at full capacity, it was learned by the provincial government, which is visiting the plant. Mr. W. Norman, vice-president of the company, is attending the 10th annual conference of the Canadian Federation of Mayors and Municipalities.

Officials of Quebec's ministry of municipal affairs are revising their proposals, having regard to all possibilities of centralizing and increasing the powers of administration and authority of the municipalities.

The province also would like to convince the central power that it is in their interest and the interest of the whole country that they should appreciate the numerous services rendered by the provincial government and their municipal systems," said Mr. Dussault.

Sees No Epidemic Of "Polio" Here

There is nothing to indicate an outbreak of poliomyelitis in Alberta, Dr. M. B. Bow, deputy health officer, said today in an interview today. "We don't anticipate any epidemic but we will inform the public of any development."

Expanding his statement, Dr. Bow revealed that the greatest incidence of infantile paralysis occurs in mid-August, and at present it is impossible to make any definite forecast. "We will be able to speak more accurately in about two or three weeks," he said.

So far this year, there have been four cases of paralysis reported in Alberta, all in the month of August. "We have no epidemic," he said, "but we will inform the public of any development."

If an epidemic is approaching there usually is a steady increase in the number of cases in July and August, reaching a peak about the middle of August. There has been nothing so far to indicate such a trend in the province.

Last year 84 cases of the disease struck Alberta citizens, mostly in the region north of Red Deer. "We can't compare the situation from year to year," said Dr. Bow, "because the disease runs in cycles."

The department of health issued a warning today that parents should be alert regarding the disease. "In the meantime any children showing symptoms of paralysis should be examined by a doctor," he said.

There are three ways in which a child's normal health may show a decline. A decrease in appetite, a change in temperature, or a headache may occur, or a child may be unusually irritable, or a child may be unusually nervous.

Allow German PW Wed British Girl

LONDON, July 8.—(Reuters)—A German prisoner of war sentenced to a life term of imprisonment for "conspiring" with a British girl, was today allowed to marry the mother of his child.

This was one outcome of yesterday's House of Commons decision to allow German prisoners of war to marry British women. The decision was made by a vote of 219 to 194.

The German's friend is 21-year-old Olive Reynolds, of London. After the marriage, she will have to live apart from her husband, who will get no concession because he is married to an English girl.

Pacific Tribes Rapidly Warring

MELBOURNE, July 8.—(CP)—From 1,000 miles across the Southwest Pacific came fragmentary reports yesterday of a "declaration of war" by a tribe of Solomon Islanders against another on the coral-fringed island of Guadalcanal.

The report originated, press dispatches from the Queensland town of Townsville said, with unidentified natives of the island of New Guinea, 1,000 miles northwest of Australia, who presumably had landed in the area, some of some of the fiercest fighting of the Pacific war. The Solomon Islands are British possessions.

Ottawa Official Says: More Tourists Visiting Parks Than Previously

Including the large number of Americans who are flocking across the border to visit Alberta parks, tourist traffic is heavier than at any time in the past, James Smart, controller of National Parks at Ottawa stated in an interview at the Macdonald hotel Wednesday.

Marries on Train

Mr. Smart is visiting the city on the extension of his tour of inspection of the national parks. He is accompanied by his wife and two children. They are on their way to visit the national parks.

Because moose have been extinct for sometime in the Cape Breton national park, six animals will be sent from Elk Island in the near future, as an experiment in reintroduction.

Confirming the recent statement that the Wainwright park would be abandoned, he said that "it is no longer a national park." Part of the site will be used for military training, under an agreement of the department of national defense and the province of Alberta.

Referring to Jasper Park, he stated that a large accommodation program is underway. "There is a good deal of activity in extending the park, and in building a new campground and hotels to help cope with the situation," he added.

The department of national defense is taking advantage of cheap rates to tourists using the camping grounds, he said.

Roads in the park were in excellent condition, he said. "The roads are continued to the fisheries hatchery, he disclosed."

Form Co-op Group At Drumheller

A co-operative coal mining association has been formed in the Drumheller district. It was announced today by Hon. C. E. Gerhart, minister of trade and industry.

The group will employ its own members for work in the mine, which is owned by a small association of miners who have taken over the enterprise on a purely cooperative basis.

Each miner will work at the mine on a share basis, plus dividends on operations each year. The group will purchase coal for its members. Some miners are now cleaning up the workings and are producing coal under way more miners will be employed. The group will apply only to the inter-urban drivers, not to city tramways, stated Hon. C. E. Gerhart, minister of trade and industry, Wednesday.

Teamsters' Hours Are Not Extended

Clarifying a previous announcement that working hours for inter-urban truck drivers are to be extended from 48 to 50 hours per week, a statement has been issued to city truckers that the new regulation applies only to the inter-urban drivers, not to city tramways, stated Hon. C. E. Gerhart, minister of trade and industry, Wednesday.

Thunder Storms Expected Tonight

Thunder storms are predicted for tonight, clearing overnight, with cooler weather Thursday. During the thunderstorm tonight, winds will be gusty at 40 miles per hour, but otherwise light. Skies will be cloudy Thursday.

The maximum temperature yesterday was 82 above at 3 p.m. and 80 above at 6 p.m. Expected high Thursday is 70 above.

Today's Markets

Today's Market Summary

MONTREAL.—Industrial, alcohol and metals are easier in irregular quiet trading.

TORONTO.—Prices slip back for all groups in slow trade and dull action.

NEW YORK.—Stocks generally turn down after a record-breaking nine-session rise.

CALGARY.—Volume of trading in oil stocks is even lighter but price changes are small.
